The 2016 Hong Kong International Symposium in Peri-implantitis
(One-day symposium and half-day hands-on masterclass course)

November 20–21, 2016
(Sunday & Monday)

2016 香港種植體周圍炎國際研討會

November 20–21, 2016
(星期日 & 星期一)

Course faculty: Prof. Joerg Meyle (Germany), Prof. Stefan Renvert (Sweden) & Dr. Jean-Louis Giovannoli (France)

Venue: The Prince Philip Dental Hospital

Introduction

Peri-implantitis, like periodontitis, is an increasingly common inflammatory disease with multifactorial etiology. Some individuals are more prone to its development than others, and this host susceptibility critically increases the risk for peri-implantitis and implant failure. Emerging evidence shows that subjects with a history of periodontal disease, smokers and those with poor oral hygiene are at greater risk of developing peri-implant disease with bone loss around dental implants and eventual loss of the implants. In clinical practice, all the systemic/local risk factors and indicators should be reviewed and identified to effectively control the infection and inflammation in both teeth and dental implants for life-long oral health.

This one-day hot symposium timely addresses the increasingly challenging issue of peri-implantitis by three prominent scholars and experts in periodontology and implant dentistry. The following critical topics will be covered, through series of informative and interactive lectures, e.g. i) global prevalence of peri-implantitis; ii) its etiology and pathogenesis; iii) host susceptibility and risk assessment; iv) prevention, diagnosis, treatment strategy and planning; v) soft tissue management and non-surgical/surgical treatments including regenerative approaches; and vi) biofilm management and long-term maintenance care.

An additional half-day hands-on masterclass course will be offered to 50 participants who have to attend the one-day symposium. This masterclass course could be repeated if needed. This course will cover the critical issues related to managing patients with peri-implantitis, and provide training on various surgical modalities of peri-implantitis for optimal treatment outcomes.
### November 20 (Sunday): One-day symposium (Lecture Theatre I)

<table>
<thead>
<tr>
<th>Time</th>
<th>Programme</th>
</tr>
</thead>
</table>
| 09:00 - 09:15 | Welcome & Introduction  
Professor Jin/Professor Joerg Meyle                                          |
| 09:15 - 10:00 | Epidemiology and pathogenesis of peri-implantitis  
Speaker: Professor Joerg Meyle                                              |
| 10:00 - 10:45 | Can we prevent peri-implantitis? Patient-related risk factors  
Speaker: Professor Stefan Renvert                                           |
| 10:45 - 11:30 | What types of patients are more likely to develop peri-implant diseases?  
Patient and site related risk indicators  
Speaker: Dr. Jean-Louis Giovannoli                                          |
| 11:30 - 12:00 | Break                                                                     |
| 12:00 - 13:00 | Diagnosis & treatment strategy (incl. early infections, retrograde peri-implantitis)  
Speaker: Professor Joerg Meyle                                             |
| 13:00 - 14:00 | Lunch                                                                    |
| 14:00 - 15:30 | Initial treatment planning: To keep or remove the implant. Is non-surgical treatment useful?  
Speaker: Professor Stefan Renvert                                           |
| 15:30 - 16:15 | Implant therapy in periodontitis patients  
Speaker: Professor Joerg Meyle                                               |
| 16:15 - 16:30 | Break                                                                    |
| 16:30 - 17:15 | Soft tissue management around implants  
Speaker: Dr. Jean-Louis Giovannoli                                          |
| 17:15 - 18:15 | Surgical Therapies I & II: Regenerative approach  
Speaker: Professor Stefan Renvert                                          |
| 18:15 - 19:00 | Surgical Therapy III: Resective approach  
Speaker: Professor Joerg Meyle                                               |
| 19:00 - 19:45 | Maintenance, biofilm management and long-term results of peri-implant treatment  
Speaker: Dr. Jean-Louis Giovannoli                                         |

### November 21 (Monday): Half-day hands-on masterclass course (Simulation Laboratory)

<table>

| 13:30 - 14:00 | Reflection & pre-briefing  
Professor Joerg Meyle                                                        |
| 14:00 - 17:30 | Hands-on Course I: Implant placement and crater preparation  
Professor Joerg Meyle                                                          |
|           | Hands-on Course II: Surface decontamination  
Professor Stefan Renvert                                                        |
|           | Hands-on Course III: Surgical management  
Dr. Jean-Louis Giovannoli                                                         |

This event is jointly organized by the Faculty of Dentistry of The University of Hong Kong (HKU), the College of Dental Surgeons of Hong Kong (CDSHK) and Hong Kong Dental Association (HKDA).

**Coordinators:** Dr. Stanley Lai (CDSHK), Dr. Andrew Chan (HKDA) and Dr. George Pelekos/Prof. L.J. Jin (HKU)
Speakers:

**Prof. Joerg Meyle**

Prof. Meyle is the Professor and Head of the Department of Periodontology at the University of Giessen, Germany. He is the Treasurer of European Federation of Periodontology (EFP) and a member of the EuroPerio9 (2018) organising committee. He is a two-term Past-President of the German Society of Periodontology and has served on the editorial boards of the Journal of Periodontology, Journal of Periodontal Research, and Journal of Clinical Periodontology. He has contributed to five joint consensus papers from the EFP and American Academy of Periodontology (AAP), and co-authored a 2008 consensus report on peri-implant diseases that has been cited more than 450 times. He is the 2015 recipient of the AAP Honorary Membership Award.

---

**Prof. Stefan Renvert**

Prof. Renvert is the Professor of Oral Health Sciences and Research Director at Kristianstad University, Sweden. He is also an Honorary Professor at Dublin Dental Hospital, Trinity College, Dublin, Ireland, and guest professor at the Blekinge Institute of Technology, Sweden. He is the Past-Presidents of the Swedish Society of Periodontology, and the European Federation of Periodontology. He was the Scientific Chairman for EuroPerio 5 meeting in Madrid 2005, and Chairman of the Europerio 6 in Stockholm 2009. He has published over 150 papers in international journals with more than 60 papers related to peri-implant diseases. His current research focuses on treatment of peri-implantitis, oral malodor, periodontal health and disease in the elderly, and the association of periodontal disease with general diseases.

---

**Dr. Jean-Louis Giovannoli**

Dr. Giovannoli is a well-known periodontal specialist from Paris. His practice is limited to periodontics and oral implantology. He obtained his basic dental education from University of Paris VI, specialty training in periodontology from the University of Washington, and the master degree in education from the University of Florida. He is the Past-Presidents of the French Society of Periodontology, and the European Federation of Periodontology. He was the Chairman of EuroPerio 1. As the Scientific Director of Quintessence International, he serves on the editorial board of several journals. He is a Guest Professor at the University of Corsica. He is the author (with Prof. Stefan Renvert) of the hot book “Peri-implantitis” (2012). His research interests include periodontal health and disease as well as peri-implant diseases.
