Go with the Digital Workflow

21st August, 2017 (Monday)
Time: 7pm-8pm
Lecture Theatre 1,
The Prince Philip Dental Hospital,
34 Hospital Road, Hong Kong

Dr Marcos Vargas
College of Dentistry
The University of Iowa

Dr Marcos Vargas received his DDS degree from Cayetano Heredia University in Lima, Peru in 1985.

He attended a two year AEGD program with emphasis on restorative dentistry at Eastman Dental Center in Rochester New York. He received the Certificate in Operative Dentistry and Master of Science degree from the University of Iowa in 1994. Currently Dr. Vargas, DDS, MS, is Associate Professor in the department of Family Dentistry at the University of Iowa. He teaches undergraduate and graduate students and he is in charge of the operative and esthetic courses for the senior students.

Dr. Vargas has published extensively in the area of dental adhesion and resin composites for the past 14 years. He participates extensively in continuing education, nationally and internationally with many hands on seminars with resin composites. He maintains a private practice limited to Operative Dentistry with emphasis in aesthetic dentistry.
Course Synopsis
Go with the Digital Workflow

ABSTRACT

Digital technology has revolutionised the way we do Dentistry. From Diagnosis to designing a smile to fabricating crowns from digital impression, it feels like the future of Dentistry is now!

But, most dentists today are feeling rather confused and unsure as to how to go about incorporating digital dentistry into clinical practice. In this lecture, Dr. Vargas will discuss on the topic of Digital Dentistry specifically in regards to Prosthodontics procedures which will include digital impressioning and how to choose the correct materials to ensure long term success both for the dentists in regards to incorporating Digital Dentistry as well as for the patients.

This lecture introduces the use of Digital Dentistry in clinical practice by the general dental practitioners. It will focus to prosthodontic procedures such as taking digital impression and choosing the appropriate dental materials for success in clinical care.
