Speaker
ARIEL J. RAIGRODSKI
DMD, MS, FACP

Dr. Raigrodski is a Diplomate of the American Board of Prosthodontics and maintains a full time private practice limited to Aesthetic, Restorative, and Implants Dentistry in Lynnwood, WA. He is also an affiliate Professor at the Department of Restorative Dentistry at the University of Washington. He is Assistant Editor of The Journal of Prosthetic Dentistry and a member of the editorial review boards of the Journal of Esthetic and Restorative Dentistry, the Journal of Prosthodontics, and the International Journal of Periodontics and Restorative Dentistry. Dr. Raigrodski currently serves as President of the American Academy of Fixed Prosthodontics. He is a graduate of the Hebrew University in Jerusalem Israel. He received his certificate in Prosthodontics at Louisiana State University School of Dentistry, where he also completed a fellowship in implants and esthetics, and an MS degree. He is a Fellow of the American College of Prosthodontists, a Fellow of the International College of Dentists, and a member of many professional organizations. An author of numerous scientific articles and book chapters, Dr. Raigrodski's research is mainly clinical and focuses in all-ceramics, implants, and CAD/CAM technology. He is the Author of the book "Soft Tissue Management: The Restorative Perspective-Putting Concepts into Practice" published in 2015 by Quintessence Publishing, and lectures extensively both nationally and internationally.

Course Synopsis

The Evolving Impact of All-Ceramics and CAD/CAM Technology on the Contemporary Dental Practice — From Concepts to Clinical Success

ABSTRACT

The purpose of this presentation is to provide evidence-based knowledge addressing the properties of ceramic materials' (mainly zirconia and lithium-disilicate) in terms of esthetics and physical properties. It will highlight how the advent of CAD/CAM technology supports the design and fabrication of these restorations in the dental laboratory, with emphasis on zirconia-based restorations. It will also focus on concepts of restoration design (bilayered, monolithic, and hybrid) for all-ceramic restorations and how appropriate restorations' design may alleviate prospective clinical complications.

The unique properties of zirconia and its use in the restorative phase of implant dentistry will be discussed as well. Finally, this presentation will describe the newer more translucent zirconia systems and their evolving role in the restorative practice.

Preparation design, soft tissue management with provisional restorations, impression procedures, insertion aspects (adhesive/traditional cementation procedures), advantages and limitations, and treatment planning considerations for complete-coverage all-ceramic restorations will all be discussed, to enhance dental practitioners' clinical success in practice.

DATE

April 23, 2018 (Monday)

VENUE

Lecture Theatre 1, The Prince Philip Dental Hospital, 34 Hospital Road, Hong Kong

COURSE FEE

Registration Fee: HK\$250

CME/CPD CREDITS (To be confirmed)

DCHK (CPD Points): 2

CDSHK (CME/CPD Points): 2

HKDA (CME/CPD Hours): 2

MODERATOR

Professor C.H Chu – Clinical Associate Professor, Faculty of Dentistry, HKU

COURSE SCHEDULE

18:30 Registration

19:00 - 21:00 Lecture

The CDE lecture organised by HKU Faculty of Dentistry is sponsored by 3M Hong Kong Limited.
